Properly insert the paper drawer. Push it back into the copier, and then try pressing the release button and pulling it out again. Turn the paper stack over, and place it in the paper drawer. Doing so may cause paper jams. Not adjusting the guides correctly might cause paper jams, dirty prints or make the inside of the machine dirty. To prevent these problems from occurring, make certain that the guides are adjusted correctly for the loaded paper size. However, since this number may vary depending upon the original, it is recommended that the toner be added as soon as possible. When the toner bottle starts to come loose from the toner supply port, lightly hold it so that it does not fall over.
